LETTER FROM THE CHAIRMAN

Dear Fellow Conservatives,

I am pleased to present the American Conservative Union Foundation's ratings for the 2015 meeting of the North Carolina General Assembly. Like our Congressional Ratings, our State Ratings reflect how elected officials view the role of government in an individual's life. The North Carolina legislators with the strongest scores voted most consistently with the ideals articulated in the US Constitution: limited and transparent government, individual rights, personal responsibility, and a healthy culture.

The 2014 election completed a political transformation that began in 2010 and resulted in voters of almost half the states, 23 in all, entrusting Republicans with the governorships as well as control of both chambers in the respective state, the biggest sweep since the first half of the 20th Century.

By examining all our State Ratings (which cover a wide variety of issues) we can see which states have best used their Republican majorities to apply conservative principles, how others have struggled, and in yet other states, how conservatives have stood up against liberal majorities. I know that this guide will provide you with the most comprehensive evaluative tool to learn how your legislators measure up.

Sincerely,

Matt Schlapp
Chairman
American Conservative Union

SELECTING THE VOTES

ACU researched and selected a range of bills before the North Carolina General Assembly that determine a member's adherence to conservative principles. We selected bills that focus on Ronald Reagan's philosophy of the "three-legged stool": 1) *fiscal and economic*: taxes, budgets, regulation, spending, healthcare, and property; 2) *social and cultural*: 2nd amendment, religion, life, welfare, and education; and 3) *government integrity*: voting, individual liberty, privacy, and transparency. These issues are designed to give citizens an accurate assessment that conveys which of North Carolina's elected leaders best defend the principles of a free society: Life, Liberty and Property.
