LETTER FROM THE CHAIRMAN

Dear Fellow Conservatives,

We are pleased to present the American Conservative Union Foundation's ratings for the 2016 meeting of the Washington State Legislature. Like our Congressional Ratings, our State Ratings reflect how elected officials view the role of government in an individual's life. The Washington legislators with the highest scores voted most consistently with the ideals articulated in the U.S. Constitution: limited and transparent government, individual rights, personal responsibility, and lasting cultural values.

In 2015, ACU Foundation was proud to make history by being the first organization to rate every single state legislature across the full spectrum of issues, helping each voter understand how his or her state ranks among the rest.

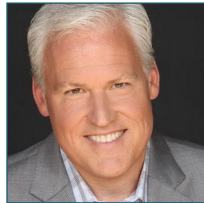

Ultimately, we are trying to help people understand what conservatism *is* and how it improves the lives of everyday Americans. Conservatism is the political philosophy that sovereignty resides in the person. We think that understanding this idea is essential if Americans are to successfully govern themselves again.

Working with our policy centers and fellows, the ACU Foundation engages in deep policy analysis to help create our annual state scorecards. We have enhanced the vote descriptions this year to show this effort more clearly.

By examining all 50 of our State Ratings, we can see which states have most effectively promoted conservative solutions and which have struggled. Our ratings also help identify legislators who have courageously fought against liberal majorities. We hope that this guide helps you learn how well, or poorly, your legislators work to preserve the values we share.

Sincerely,

Matt Schlapp

SELECTING THE VOTES

ACU researched and selected a range of bills before the Washington State Legislature that determine a member's adherence to conservative principles. We selected bills that focus on Ronald Reagan's philosophy of the "three-legged stool": 1) *fiscal and economic*: taxes, budgets, regulation, spending, healthcare, and property; 2) *social and cultural*: 2nd amendment, religion, life, welfare, and education; and 3) *government integrity*: voting, individual liberty, privacy, and transparency. This wide range of issues are designed to give citizens an accurate assessment that conveys which of Washington's elected leaders best defend the principles of a free society: Life, Liberty and Property.

WASHINGTON SENATE VOTE DESCRIPTIONS

1. **SB 5363 Eminent Domain.** This bill prohibits the use of eminent domain for economic development since it is not a public use. ACU Foundation's Center for 21st Century Property Rights engages heavily on this issue and supports property rights and reserving the use of eminent domain for a compelling public purpose. ACU supported this bill. The Senate passed the bill on February 16, 2016 by a vote of 33-16.

2. **SB 6239 Housing Subsidies.** This bill allows local governments to exempt "affordable housing" as defined by the government from property taxes. ACU opposes this interference with the free market that puts a higher property tax burden on those not favored by the government and opposed this bill. The Senate passed the bill on February 16, 2016 by a vote of 36-13.

3. **HB 1541 Education Mandates.** This bill requires that local schools use resources to educate those expelled from school, prohibits expulsion for more than one semester, and tracks "education outcomes" for those in juvenile detention facilities. ACU opposes these mandates on local education that take away needed resources from the classroom and opposed this bill. The Senate passed the bill on March 4, 2016 by a vote of 38-10.

4. **SB 6165 Short Barreled Rifle Regulations.** This bill allows any person in compliance with federal law to own, buy or sell a short barreled rifle. ACU supports the founders' belief in the Second Amendment and supported this bill. The Senate passed the bill on March 7, 2016 by a vote of 44-4.

5. **SB 6100 Government Training Assistance to Business.** This bill creates a taxpayer-funded training assistance program to provide market research, business modeling, and help with sales leads, among other services for businesses favored by the government. The businesses must gross between \$500,000 and \$50 million per year and employ between 6 and 99 people. ACU opposes the use of taxpayer funds to assist one business over another and opposed this bill. The Senate passed the bill on March 8, 2016 by a vote of 44-4.

6. **SB 6601 Education Savings Accounts.** This bill reinstates a college savings account plan, known as the 529 plan, that permits parents to save for college while not paying taxes on investment earnings. Educational attainment is an important cultural value that yields substantial economic returns for families and for states, which is underscored by ACU Foundation's Family Prosperity Index. ACU supports this free market approach to education funding and supported this bill. The Senate passed the bill on March 8, 2016 by a vote of 45-2.

7. **SB 6194 Charter Schools.** This bill responds to a court ruling stating that it is unconstitutional to fund charter schools through tax revenues because they are not run by a publicly elected school board. The bill calls for the funding to come from state lottery revenues. Educational attainment is an important cultural value that yields substantial economic returns for families and for states, which is underscored by ACU Foundation's Family Prosperity Index. ACU supports school choice and supported this bill to keep charter schools open. The Senate passed the bill on March 10, 2016 by a vote of 26-23.

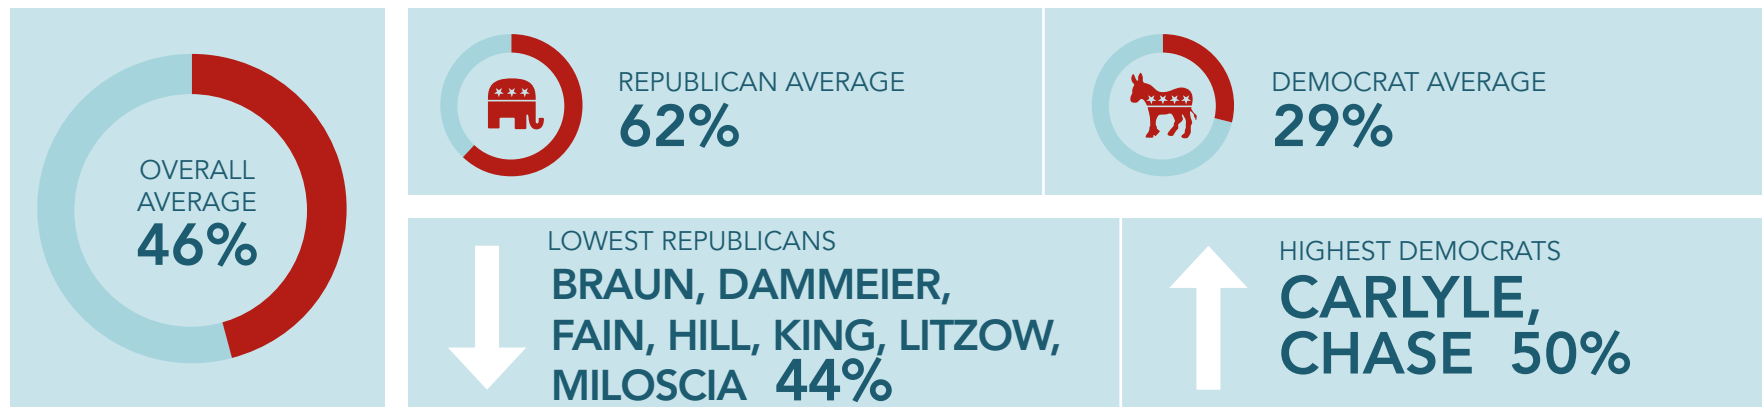

8. **SB 6328 E-Cigarettes.** This bill sets up a new regulatory regime for e-cigarettes that makes it a felony to sell e-cigarettes without a license and cracks down on the selling of e-cigarettes to those under 18. ACU believes that both tobacco and e-cigarettes are a personal liberty issue and government regulations on products are only appropriate when they are substantially impacting others and opposed this bill. The Senate passed the bill on March 28, 2016 by a vote of 37-6.

9. **HB 2778 Electric Vehicle Subsidies.** This bill raises the sales tax exemption for electric vehicles to \$42,500. ACU supports all forms of energy, opposes government favoring one form of energy over another, and opposed this bill. The Senate passed the bill on March 29, 2016 by a vote of 28-15.

2. **HB 1571 Paint Regulations.** This bill creates a new regulatory regime for a statewide paint take-back program that requires adherence to a “paint stewardship program” and imposes restrictions on selling paint to a company that does not adhere to the government program. When entrepreneurship is suppressed, the resulting decline in economic growth leads to a reduction in family prosperity, as is underscored by ACU Foundation’s Family Prosperity Index.
